WELCOME TO CRAWLERS

Dear Parents,

Welcome to the crawler room! Your child will be moving to the crawler room on _____. Our classroom consists of children 8 months to one year. Children enter our classroom at various stages; some are already crawling, while some are just learning to sit up. Our goal is to make the transition for your child as smooth as possible. Our day consists of: feeding, changing, sleeping, lots of belly laughs, tons of hugs and kisses, story time, music and playing!

The following is the meal schedule in the crawler room:

Breakfast	7:00-8:30
Lunch	11:00-12:30
Snack	2:00-3:00

Bottles will be given at any time, as directed by the parents. The goal is to have the children using only sippy cups by the time they leave the crawlers, so please provide them with at least 2 cups daily.
.

This schedule allows us to have more time to play with the children, tend to their needs, and get to know them better.

Some of the things your crawler will need in their new room are:

- Bottles, food, and snacks
- A sippy cup with juice, milk, or water labeled with your crawler's name
- Diapers and wipes
- Extra change of clothes
- Medicine as needed (All medications need to be locked up in our medicine cabinet and **cannot** be left in diaper bags. A doctor's note also needs to accompany all prescription medicines before they can be given.)
- A blanket

Please remember, **everything** needs to be labeled! This includes all bibs, cups, bottles (top and bottom), food, blankets, clothes and pacifiers.

We are looking forward to getting to know you and your child, to care for them, and enrich their development.

Sincerely,

The Crawler Teachers
